Nurse (RN or RPN)

ACTT – Step Care

In keeping with the Mission, Vision, Values of the Canadian Mental Health Association – Cochrane Timiskaming Branch (CMHA-CT), the Nurse (Registered Nurse or Registered Practical Nurse) is a member of a multi-disciplinary team and plays a key role in the coordination and delivery of nursing care and services for clients who are affected by addictions and serious mental illness. The Nurse recognizes and respects the individuality and uniqueness of each client, including their needs, values, beliefs, and choices.

The Nurse provides transitional and integrated stepped care to existing ACTT clients within the CMHA-CT and contributes to the teams' medical expertise through involvement in assessment and interventions aimed at meeting the psychiatric and physical health needs of clients including management and administration of medication.

Qualifications:

- Successful completion of a RN or RPN diploma program or BScN degree program
- Current registration with the College of Nurses of Ontario and in good standing;
- Previous nursing experience in mental health;
- Valid driver's license and use of a reliable vehicle.
